EXPERIENCE

Frontend Web Developer

Adaptive Future Technologies

- Converted high-fidelity layout files into responsive HTML5/CSS3 and React templates across multiple client codebases.
- Diagnosed cross-browser bugs using DevTools, improving mobile layout stability across core platforms.
- Reduced page rendering times by 40% using targeted image compression, code splitting, and browser caching.
- Accelerated technical sprint delivery using AI workflows like Claude Code and GitHub Copilot for automated boilerplate setup.

07/2025 – Present

Ibadan, Nigeria

Founder & Product Engineer

Isogun Labs

- Managed parallel development pipelines for commercial web tools, maintaining code accuracy from visual mockups to deployment.
- Integrated asynchronous AJAX features, REST endpoints, and dynamic client interaction interfaces.
- Maintained web accessibility compliance (WCAG 2.1) and custom mobile-first CSS architecture.

2026 – Present

Ibadan, Nigeria

IT Support Intern

Idea Konsult Limited

- Supported technical troubleshooting requests across a client network of 200+ users with strict operational uptime.

06/2023 – 12/2023

Ibadan, Nigeria

SELECTED PROJECTS

OyoBooking – Regional Hotel Booking

[oyobooking.ng](#) [✉](#)

- Built a responsive hotel booking application optimized for reliable mobile performance over variable network speeds.
- Implemented cached state layers and REST API integrations for streamlined property reservation workflows.
- Structured secure user payload validation to reduce booking drop-off rates on mobile viewports.

Learncity Tech Education Platform

[learncityacademy.com](#) [✉](#)

- Transformed wireframes into semantic HTML5/CSS3 site templates, lifting mobile visitor conversions by 25%.
- Optimized responsive breakpoints across common tablet and smartphone viewports.
- Enhanced frontend search indexing and resource page speed through minimal CSS asset delivery.

Open School Field – Venue Booking

[open-school-field-five.vercel.app](#) [✉](#)

- Built a web interface with offline-capable PWA capabilities and cross-tab synchronization.
- Designed mobile layouts focused on simple navigation and low asset overhead.
- Integrated real-time slot selection UI handling dynamic client-side reservation updates.

Nachie Maridadi – Brand Platform

[nachimaridadi.vercel.app](#) [✉](#)

- Engineered a mobile-first digital showroom using TypeScript and HTML5 for a high-end luxury fashion brand based in Kenya.
- Designed motion transitions and responsive layout structures tailored for high-resolution visual storytelling.
- Built call-to-action systems, WhatsApp inquiry pipelines, and prepared headless Sanity CMS content structures.

C-HOMES – Verified Property Search

[c-homes.vercel.app](#) [✉](#)

- Developed a React 18 and TypeScript real estate search tool helping corps members locate accommodation in Ibadan.
- Built filtering systems by Local Government Area using TanStack Query and styled components via Tailwind CSS.
- Integrated automated Sanity CMS data feeds and WhatsApp communication tools for instant agent inquiries.

TECHNICAL SKILLS

Frontend Core

HTML5, CSS3, JavaScript (ES6+), TypeScript, jQuery, Media Queries, Responsive Web Design

Frameworks & Libraries

React 18/19, Tailwind CSS, Bootstrap, TanStack Query, Headless CMS (Sanity)

APIs & Web Tech

AJAX, REST APIs, Chrome DevTools, Performance Optimization, PWA

AI Tools & Workflow

Claude Code, GitHub Copilot, OpenAI Tools, Cursor, Git/GitHub, Vercel

Design & Asset Tools

Design-to-Code Conversion, Web Image Optimization, Cross-Browser Debugging

Remote Workstation Setup

High-Performance PC, Fiber Internet, Uninterrupted Power Backup, Full PST Availability

EDUCATION

Bachelor of Technology

Computer Science

2024

Olusegun Agagu University of Science and Technology

Ondo, Nigeria

GPA: 4.09/5.0

CERTIFICATIONS

Project Management  
Six Sigma Yellow Belt  
Scrum Fundamentals Certified

CORE STRENGTHS

Design-to-Code Precision  
Multi-Project Coordination  
Front-End Debugging  
AI-Accelerated Development
